Discussion Forums:

Getting Started Discussion Post: Students are required to create an initial post at the beginning of each course. In the initial post, students will do the following:

1. Provide a short introduction of him/herself;
2. Explain his/her personal or professional experiences encountered that relate to the general topic(s) of the course; and
3. Review course outcomes and state how the outcomes are relevant to his/her own professional experiences and interests.

All Discussion Forums (Weekly):

Initial Post (For Each Week): Students are required to post an initial response to the question/prompt for the week. The initial post must be at a minimum of 300 words. The initial post must include at least one reference. Each reference must be cited at the end of every post.

Response Posts (For Each Week): Students must reply and/or make comments to a minimum of two peers. Posts must be at least 150 words.

Replies/responses to the professor will count as one Response Post. You must respond to the professor each time he/she asks a question or asks for more information. Regardless of the number of replies back and forth, all responses from the student (under the same discussion post) count as one response post.

The discussion rubric will be used to assess student contributions to the discussions each week. Points will be derived from the student's comprehensive initial post and response posts, including but not limited to, the student's ability and effectiveness at raising questions, extending the discussion, and using resources that contribute to the topic(s). The success of the discussion forum comes from all learners. We encourage each student to share ideas, opinions, and concepts, and use resources to substantiate his/her position (as needed).

Individual Assignments:

Students are required to submit individual assignments on the weeks specified under assignment details. The individual assignment is a graduate-level paper that includes a cover page, written material, and a reference page. References must all be within the last seven years. Only “source document” references considered “seminal sources” are allowed to be older than seven years old.

Papers are to be 2-4 pages (not including the cover or reference page), succinct, informative, and written at the graduate level.

The paper must show understanding, application, and analysis. Superior papers will include the levels of evaluation and possibly creation (as applicable).

NOTE: The rubric is the same for both individual and group assignments.

Problem Based Learning

Problem based learning includes case studies or additional resources that show the application, analysis, evaluation and synthesis of the issue(s) presented. The paper must be at least six pages but no more than ten pages (not including the cover/reference pages). The number of pages required may be changed at the discretion of the professor based on the assignment. A minimum of three peer-reviewed articles per group member must be included on the reference page. Students will also be required to make an oral presentation.

Group members will be assigned. For every assignment, the group must identify a mutually agreed upon time to meet (in person and/or virtually) to divide and conquer. Students should ensure each peer as an equal part of the assignment. A “Group Leader” should be selected for each assignment (please rotate this position). The Group Leader will be responsible for reviewing the components, completing final edits, and submitting the paper on behalf of the group. Other group members can assist with the reviewing/editing, but only one paper can be submitted on behalf of the group.

Midterm Exam

The midterm exam will address the following learning objectives:

1. Examine effective behaviors in organizations.
2. Compare and contrast theories of team dynamics to enhance group effectiveness within organizations.
3. Combine data with knowledge to create informative and useful research.
4. Evaluate individual and group mechanisms in the context of organizational behavior to determine the actions that lead to enhanced employee motivation.
5. Apply critical thinking skills to create strategies that will improve organizational behavior.
6. Create strategies that will lead to increase employee engagement within organizations.

The midterm exam will include both essay and short answer.

Final Project

The final project will include the development of a research paper evaluating the major mechanisms of organizational behavior. Details will be provided in week 6. Students will be required to submit a 10-12 page paper. A minimum of four peer-reviewed articles must be cited. The final project will be 20% of the overall grade.

Final Project Rubric

Academic Integrity:

Academic integrity is a basic principle of the College's function. Midstate College students are expected to maintain a high level of academic honesty. Contrary actions may result in penalties such as failure of the assignment(s), a lesser grade on assignment(s), failure of the course and/or suspension from the College. The course instructor will review all submitted documents and supporting evidence in connection to the infraction. The course instructor will also review the student's personal file for other notifications of academic dishonesty before determining the level of action to be applied. The course instructor will complete the Academic Dishonesty Report form to document and describe the incident and actions taken, then kept on file. The student may appeal the decision to administration, whose decision will be final.

The following (**plagiarism, cheating, deception, sabotage, computer misuse and copyright infringement**) are included in the actions Midstate College considers behavior contrary to the academic integrity policy; however, the policy is not limited to these examples. Further discussion of consequences regarding academic dishonesty are addressed in the Student Handbook.

Plagiarism:

Plagiarism is using another person's words, by either paraphrase or direct quotation, without giving credit to the author(s). Plagiarism can also consist of cutting and pasting material from electronic sources by submitting all or a portion of work for assignment credit. This includes papers, computer programs, music, sculptures, paintings, photographs, etc. authored by another person without explicitly citing the original source(s). These actions violate the trust and honesty expected in academic work. Plagiarism is strictly against the academic policy of Midstate College. Its seriousness requires a measured, forceful response which includes consequences for inappropriate and/or no citation.

In courses containing writing assignments, the College promotes the use of Turnitin which compares the student's writing against previously submitted papers, journals, periodicals, books, and web pages. Students and instructors can use this service to reduce the incidence

of plagiarism. This electronic resource has been found to conform to legal requirements for fair use and student confidentiality. It is able to provide a report to the student indicating the parts of the assignment that match.

Student Success and Tutoring:

Contact Student Success: Room 110; (309) 692-4092, ext. 1100;
studentsuccess@midstate.edu;

The Office of Student Success offers help in the following areas:

- Tutoring: Tutoring is encouraged for students who are doing their best to complete assignments yet still are experiencing difficulty in this course. Tutoring may be provided by the instructor outside of scheduled class times or through the office of Student Success.
- Writing assignment assistance: This may include learning how to conduct research; using proofreading tools such as Turnitin; outlining a topic; and applying APA6 standards.
- Math, accounting, and computer skills (including file management).
- Test-taking techniques.
- Note-taking skills development.
- Study skills development.
- Time management.

Policies and Procedures:

1. Late Work: Late work is not accepted and will result in a zero percent on any/all late assignments. Only in extreme extenuating circumstances will late work be accepted (and even in such circumstances, the student has the responsibility to notify the instructor in a timely manner and seek approval for extensions). Even if extensions are granted, late penalties in grading will still apply at the discretion of the instructor.

2. All Writing Assignments: Graduate-level writing is expected. This includes, but is not limited to papers, essays, projects, essay questions on exams, homework assignments, and summaries. These assignments will supplement the textbook, additional readings, and lectures to further your understanding and application of course material. Students may be asked to submit forums or written work online via Turnitin (our online plagiarism and grammar scanning software). All citations must be formatted using APA 6. Late papers will not be accepted (see above policy on late work). All writing must be typed, 12 pt. font, with 1" margins. Writing should pull on details from the course material and should be in your own words (see Academic Dishonesty below).

3. Academic Dishonesty: Material/information taken from ANY source, including the course textbook, should be cited appropriately. Cheating / plagiarism in any form will not be tolerated in this course and may result in the dismissal/suspension from the course/program/college. Do your own work. Not knowing the rules of plagiarism is not a valid defense. Check with me or our numerous campus resources on academic integrity (i.e. Student Success, Library, etc.) if you are not clear on what constitutes plagiarism.

4. Syllabi Changes: The instructor reserves the right to change this syllabus at any time. Students will receive timely notice of all such changes via announcements made online in Moodle Rooms and/or via email.

Participation Requirements:

In class: Students are expected to be in class during each on-campus session. Attendance is taken for each class session, and reported to the college. Likewise, students may receive credit for attending, and/or participating in, class. In the event of an absence, even if it was approved by the instructor in advance, the student will be marked absent and may lose any/all points associated with participation.

eLearning: In accordance with Midstate College policies, class material will be made available in our learning management system (Moodle Rooms) on Monday at 12:00 p.m. of each week and will remain available until the following Monday until 8:00 AM. This allows students one week to access the lecture and related material for that week's session, complete any assignments and/or assessments, and participate in the mandatory discussion and summary boards (see my discussion/summary requirements rubric in Moodle Rooms to ensure full credit in forums). Students must "submit substantial gradable work" in order to be marked as present for each week (see the Midstate eLearning policy on attendance in the student eLearning handbook). While each week extends from Monday at 12:00 PM to the following Monday at 8:00 AM, the instructor has the right to set due dates at their discretion within each week. For instance, your initial discussion posts are due Thursday nights by Midnight (further information is located on my discussion/summary rubric). Certain assignments, exams, and papers/projects may be due in the middle of the week at specified days and times.

Examination Information:

This class will include final project that will be worth 20% of the final grade. The final project will be comprehensive, as it will cover the higher levels of Bloom's Taxonomy and confirm the student's knowledge of the course content by addressing the course objectives.

Methods of Evaluating Student Performance:

At the MBA level, students will be graded on their performance through content submitted via discussion forums, individual, and group assignments. Student performance will be evaluated with rubrics which are available to students at the beginning of the term.
